

Approved List of Related Courses

The following are a list of courses that can be used in the 'additional units' area of the track to count towards the minimum 52 unit requirement:

Lower-division Courses

Chemistry (CHEM): 5
Computer Science (CS): 10, 12, 14, 61
Mathematics (MATH): 9C* or 9HC, 10A*, 10B*, 42 or 46

Upper-division Courses

Anthropology (ANTH): 146, 150, 152, 155, 156, 162, 170
Psychology (PSYC): 120, 120L, 124, 125, 126, 127, 146, 160
Any upper-division course from the following departments and programs:

Biochemistry (BCH)
Biology (BIOL)
Botany & Plant Sciences (BPSC)
Cell Biology & Neuroscience (CBNS) [formerly NRSC]
Chemistry (CHEM): except organic chemistry lecture/lab/discussion corresponding to the life science core
Computer Science (CS)
Conservation Biology (BLCN)
Earth Sciences (GEO)
Entomology (ENTM)
Environmental Sciences (ENSC): except 143A, 143B, 143C, 174
Environmental Toxicology (ENTX)
Mathematics (MATH)
Microbiology (MCBL)
Nematology (NEM)
Physics (PHYS)
Plant Pathology (PLPA)
Soil and Water Sciences (SWSC)
Statistics (STAT)

* An equivalent transfer course with a minimum grade of "C" will satisfy no more than four units of the related area requirement.

Course Selection: Courses applied to the related area should be selected from courses specified in the track, and/or from the approved list above. **Advisor's approval is required for exceptions.**

Grade: Courses applied to the related area must be taken for a letter grade if letter grades are offered for the course being considered. However, some courses (e.g., Biology 194, 197, 199) are graded only on an S/NC basis. In these cases, a Satisfactory is acceptable, and these courses may be counted in the related area if they meet the requirements as listed below.

190 to 199 Series Courses: No more than 9 units from 190-series courses may be applied to the related area. These units must be from a department or program in the College of Natural and Agricultural Sciences. **Advisor's approval is required for exceptions.** Advisor's approval must be recorded in your file before undertaking a 190-series course in a department or program outside CNAS.

Transfer Courses: Scientifically-oriented, upper-division courses from four-year colleges are acceptable in the related area if the advisor considers them substantive and related to the major. Courses completed at a community college are not acceptable.
