

Data Science Week at UCR

Time: February 24-28; 9am-11am

Place: Rivera Library, Room 140

Breakfast served at 8:30am

Program

Monday, Feb. 24 – Python Workshop (8am-12pm)

Tuesday, Feb. 25 – Machine Learning

Wednesday, Feb. 26 – Data Management & Data Mining

Thursday, Feb. 27 – Deep Learning

Friday, Feb. 28 – Big Data & Visualization

Data Science Career Panel (1:30-3pm tentatively)

Instructors: From UCR, NASA Jet Propulsion Lab and Caltech

Intended Audience: Undergraduate and Graduate students. No Background in data science or programming is needed.

Aims: To introduce students to the fundamental concepts and techniques in Data Science. Practical examples will be used to understand the application of data science to real problems. The course will prepare students to formulate basic problems and find solutions for them. The course is designed to prepare students for job interviews in data science.

Online Registration: <https://bit.ly/DataScience-UCR>

Questions: Dr. Xinnan Du; xinnan.du@ucr.edu
